“FOLDING MAGIC”

~Sir Richard Branson~

QUALITY
COMPONENTS &
BEST IN CLASS
WARRANTY
battery - 2 years
scooter - 2 years

Folds in seconds, making it incredibly easy to use, lift, and stow away in any mode of transport—be it a car, train, bus or plane.

TRAVEL

Ultra-Lightweight & Portable:

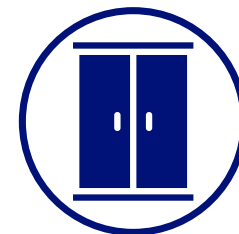

Weighing in at just 14kg* and folding down to the size of a small suitcase, the Lite ensures effortless handling and transport, giving the freedom to explore without limits.

Simple Folding Mechanism:

With easily identifiable colour-coded latches, the Lite folds in seconds, allowing you to seamlessly manoeuvre & store.

Travel-Friendly Design:

Airline friendly, this scooter allows you to use it up to the cabin door of your flight, making air travel smoother and more accessible than ever.

Designed with convenience in mind & folds down in seconds, making it easy to manoeuvre & effortless to store in any space.

STORE

Space-Saving Design:

Folds compactly for easy storage in cupboards, cars, or under beds, ensuring it's always ready for your next adventure.

Easy Charging:

With on or off-board charging, the Lite can be charged from the steering column port without needing to remove the battery.

Worry-Free Maintenance:

Solid tyres that require no pumping and backed by full support & gold standard warranty**:
battery - 2 years / scooter - 2 years

Created to empower independence with ergonomic features and intuitive controls for a comfortable, stable ride.

LIVE MORE

User-Friendly Driving:

Featuring intuitive controls, an auto-turning speed controller, and an electromagnetic braking system, the Lite offers a smooth, safe, and effortless driving experience. Its 3-wheel design has a small turning radius, also making it highly manoeuvrable in narrow aisles & confined areas.

Rapid Charging & Extended Range:

Our super-efficient, high-energy density lithium battery charges in under 5 hours, allowing travel up to 10 miles/16km—perfect for day trips & adventures.

Enhanced Comfort and Support:

Designed to accommodate all body shapes and sizes (up to 120kg/19st), with a 4-point floating seat suspension and optional armrests for a personalized, comfortable ride.

** ONLY for purchases from 01/01/25

CUSTOMER TESTIMONIALS

“Now 7 times better”

My eFOLDi Lite folds up like a cabin-sized suitcase in just a few seconds so it can be neatly stored away either in the house or when traveling by car, train, bus or coach.”

Roger Essex

“What a fantastic device. It's been so amazing for my husband to have something so portable”

Lisa Ruxton

“This is the best scooter I have ever had. It folds and unfolds so easily. You can take it anywhere, even fits in the boot of a Smart car. Easy to take on planes, trains and buses”

Sara Murdoch

“eFOLDi has opened up my world allowed me to keep up with my children on days out”

Niki Capel

“The colour-coded levers make folding even quicker & easier!”

“The turn speed reducer is so smooth and makes driving a pleasure”

“I love having somewhere to rest my arms! The arm rests also make me feel more secure”

“The new charging port is a game changer - makes charging super simple”

“Never having to worry about getting a flat tyre gives me so much more confidence & peace of mind”

THE eFOLDi ADVANTAGE:

Precision Engineering for Unmatched Performance, Durability, and Style

1. Ultra-Light, High-Strength Magnesium Alloy Frame

Made from advanced magnesium alloy, which is 3 times stronger than aluminum. This high-tech material offers superior impact resistance, ensuring a smooth, comfortable ride with exceptional durability.

2. Meticulous Weight Optimization

Every component of the eFOLDi Lite is carefully engineered to reduce weight while maintaining the highest standards of strength and longevity. This attention to detail results in a lighter, more efficient ride without compromising quality.

3. Premium Automotive-Grade Li-Ion Batteries

The Lite has a state-of-the-art, automotive-grade Li-Ion battery delivering powerful, long-lasting performance and an unrivalled 2-year warranty. These advanced batteries are lightweight, durable, and energy-efficient, saving you money in the long run while enhancing your ride experience.

4. Advanced Mechanical Technology

The eFOLDi Lite is powered by a custom-designed, high-performance brushless motor that delivers exceptional power, energy efficiency, and lightweight agility. This advanced motor enhances performance while keeping the scooter responsive and easy to handle. For added safety, it features an electro-magnetic braking system and an auto turn-speed reducer, ensuring smooth, reliable stops and greater peace.

5. Effortless Folding and Convenience

Our one-piece folding design is quick and easy, requiring no assembly. The ergonomic, user-friendly mechanism makes it simple to fold and unfold, reducing effort and offering ultimate convenience for on-the-go users.

The eFOLDi Difference: Where Innovation Meets Quality

At eFOLDi, we believe in delivering not just mobility, but a product that combines cutting-edge engineering with unmatched quality, style, and performance.

FAQs

Weight, Capacity, and Speed

How much does the eFOLDi Lite weigh?

The eFOLDi Lite is lightweight, weighing just 14kg (31lbs) without the battery, and 16kg (35lbs) with the battery. It's easy to handle, making it a great choice for daily use.

How much weight can the eFOLDi Lite carry?

The eFOLDi Lite can carry up to 120kg (265lbs), offering plenty of capacity for most users.

What is the maximum speed?

The eFOLDi Lite can reach a top speed of 6km/h (4mph), which is perfect for safe and comfortable travel on most pavements. There is a turn speed controller that automatically reduces the speed down to 3km/h (2mph) for extra safety and during sharp turns.

Comfort and Adjustability

Is the handlebar height or seat adjustable?

Unfortunately, neither the handlebar nor the seat is adjustable on the eFOLDi Lite. However, the scooter is designed to provide a comfortable ride for most users right out of the box.

How are the armrests fitted?

The armrests are an optional accessory and can be fitted free of charge by eFOLDi before despatch, or retrospectively but charges will apply. Call 0800 915 0800 for a quotation.

Battery and Charging

Does the eFOLDi Lite come with keys?

No, the eFOLDi Lite does not require keys for operation.

Where is the battery located?

The battery is conveniently located in the footrest, so it's easy to access when needed.

How long does the battery take to charge?

It takes up to 5 hours to fully charge the eFOLDi Lite battery. Be sure not to charge for more than 24 hours to maintain battery health.

Should I charge the battery overnight?

We do not recommend leaving any battery charging overnight unsupervised, even though our batteries are among the most reliable and safest on the market.

Can I charge the eFOLDi Lite with the battery left in?

Yes, you can charge the battery while it is still in the scooter using the charging port located at the top of the steering column. Alternatively, the battery can be removed and charged separately.

How far will my eFOLDi Lite go on a full charge?

Under normal, flat, dry conditions, your eFOLDi Lite can travel up to 16km (10 miles) on a full charge. Keep in mind that factors like terrain and weather can affect the range.

Manoeuvrability

Is the eFOLDi Lite suitable for tight spaces?

Yes, the eFOLDi Lite is ideal for tight spaces. Its three-wheel design allows for a smaller turning radius, making it highly manoeuvrable in narrow aisles and confined areas. Combined with its lightweight construction, the eFOLDi Lite offers excellent agility and ease of control, perfect for indoor environments and spaces where space is limited.

FAQs

Brakes and Safety

What sort of braking system does the eFOLDi Lite have?

The eFOLDi Lite features a magnetic braking system linked to the throttle. As you release the throttle, the brake is gradually engaged, giving you smooth and controlled stops. You can also release the magnetic brake if you need to freewheel at any time.

Is the eFOLDi Lite safe when turning?

Yes, the eFOLDi Lite is designed with safety in mind. It features a turn speed reducer that automatically reduces the scooter's speed by 50% if the user applies a turn greater than 20 degrees to the steering column. This ensures a smoother, more controlled turn, enhancing stability and safety during use.

Registration and Legal Requirements

Do I need to register my eFOLDi Lite with the DVLA? (UK only)

No, the eFOLDi Lite is classified as a Class 2 mobility device (pavement scooter), so it doesn't require DVLA registration.

Travel and Transport

Can I take my eFOLDi Lite on an aeroplane?

Yes, the eFOLDi Lite and its battery are fully airline-compliant! Just be sure to check with your airline before travelling, as each airline may have specific guidelines for mobility devices and requirements for travelling.

Tyres and Maintenance

Will I need to pump up the tyres of my eFOLDi Lite?

No, the eFOLDi Lite features solid tyres, so there's no need to worry about punctures or inflation.

However, if you choose to have pneumatic tyres fitted, they will require pumping and inner tube replacement for puncture repair, please see below.

What tyre pressure do I need?

For a smooth and comfortable ride, inflate the rear tyres to 35PSI. The eFOLDi Lite has a solid front tyre, so no need to worry about air pressure there!

What size inner tubes will I need if I get a puncture?

If you ever need to replace the inner tube, you'll need a 10" x 2" size for the rear tyres.

How do I remove the rear wheels?

Removing the rear wheels is simple! Just press the button in the centre of each wheel, and it will release from the frame for easy removal.

Accessories

Can I use the travel cover with the armrests fitted?

Unfortunately, the travel cover will not fit when the armrests are added.

Can I order a different colour seat pad?

The seat pad comes standard in black, but you can upgrade to a red cushion as an optional accessory.

Can I replace the solid no-pump tyres with pneumatic tyres?

Yes, pneumatic tyres can be fitted at point of purchase or retrospectively (chargeable) by eFOLDi.
